ABOUT

There are twenty-four hours in a day, seven days in a week, four weeks in a month, twelve months in a year. Patterns are the fundamentals of our world, and we follow patterns every day. I am an attentive student thrilled to make a genuine impact through patterns.

PROJECTS

Precaution

02/2021 – Present

- Hundreds of millions of dollars are lost from scams each year. What's interesting is that the value continues to increase because many individuals failed to acknowledge the dangers behind this issue. In two short months from January to February of 2021, over 40,000 cases reported a loss of \$45 million from scams. In the online era that we live in today, frankly, it's essential to teach ourselves about scams. Therefore, our objective is to educate people about frauds; ultimately, increasing awareness and decreasing success rates. With our project, we believe that users will have an authentic experience to learn.
